Contents.

And how we work.

Each trade has a page: its lines, the brands on the shelf and the catalogs we hold. Rates move with the market, so every line is priced on the day you ask.

03

Hardware

Industrial tools, Fasteners and fixings, Adhesives and sealants

04

Sanitary

Bathroom fixtures, Pipes and fittings, Kitchen and bath essentials

05

Electric

Wires and cables, Lighting and fixtures, Switchgear and accessories

06

Paints

Decorative paints, Construction adhesives, Maintenance coatings

07

Water boring

Boring equipment, Boring accessories, Water pumps

08

Our teams and services

Six crews, and the visits they make

09

Brands index

37 brands, by the shelf they sit on

10

Customers

The customer book, by trade

11

Ordering and paperwork

Quotes, invoices, payment, delivery

Supplier catalogs, online

Hardware

by the piece or the box.

The hardware counter at Gate No. 1, Sunder Industrial Estate. Maintenance teams bring the shutdown list, fabricators restock welding rods, and anyone mending something at home can walk in and point at the shelf.

Industrial tools

KUGEL hand tools and workshop kit for fitters who buy their own, Golden Bridge welding rods by the box, and SKF and NTN bearings pulled by size for motor and machine repairs.

- Hand tools by the piece
- Welding rods by the box
- Bearings matched by size

Fasteners and fixings

Screws, bolts, nuts, washers and wall plugs, sold loose or by the box. Bring a sample and we match the size and the thread.

- Loose or by the box
- Bring a sample to match

Adhesives and sealants

GMSA silicone by the tube or the carton, and WD-40 by the can for the jammed, the rusted and the squeaking.

- By the tube or the carton

Questions buyers ask

Can I send a shutdown or maintenance list?

Yes. Send it on WhatsApp as a photo, a spreadsheet or typed lines. We go through it item by item and tell you what is on the shelf and what has to be ordered in.

Can we set up a standing monthly order?

Yes. If your plant reorders the same consumables every month, send the list once. We keep it, so next month the message can be as short as "same as last time".

Can I buy a single bolt or one tool?

Yes. Walk-in customers buy by the piece. If you are unsure of the size or thread, bring the old part and we match it at the counter.

Sanitary

pipe to the last elbow.

Pipe stacked to the ceiling, every fitting that joins it, and the taps and sets that finish a bathroom. Contractors buy by the bundle, households by the length. We are an authorized TurkPlast dealer and an official Popular dealer.

Bathroom fixtures

Taps, mixers, showers and valves from RBS and Dell, TurkPlast chrome-plated sets, and Super Asia sanitary ware. Pick a model in the catalog, then send us the code for a rate.

- Choose from the catalog
- Send the model code for a rate

Pipes and fittings

Popular green PPRC for hot and cold lines and grey uPVC for drainage, TurkPlast and Easyfit PPRC, and IIL pipe for supply and drainage runs. Elbows, tees and sockets to match.

- By the length or the bundle
- Hot, cold and drainage lines

Kitchen and bath essentials

Popular PVC cabinets and PVC boards for kitchens and bathrooms, plus the accessories a bathroom still needs once the pipe work is buried.

- Cabinets and boards by catalog

Brands we stock

8

Questions buyers ask

Popular or TurkPlast: which should I use?

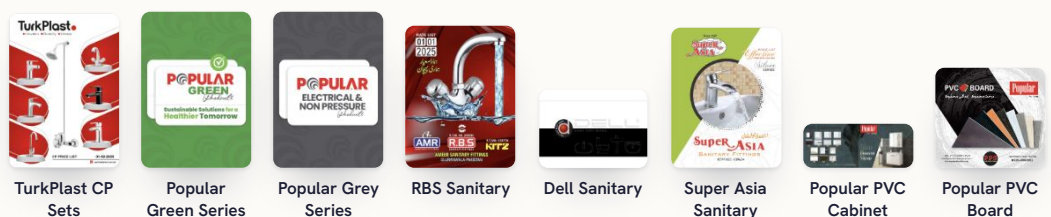

Both are on our shelves, so we have no reason to push one. Bring the drawing or the fitting list and we'll tell you which range covers the job and what each costs today.

Are you an authorized TurkPlast dealer?

Yes. TurkPlast certified Hassan Traders as an authorized dealer for PPRC and uPVC pipe and fittings, electrical conduit, garden pipe and water tanks. The certificate is on our website.

Catalogs we hold

Pick a model, then send us the code for a rate. Each cover opens the catalog online.

Electric cable by the coil.

Cable coiled by gauge on the back wall, breakers in the common ratings, and the lights and switch plates that finish a job. Factory electricians come in with a DB list; households come in for a bulb or a fan capacitor.

Wires and cables

GM, Popular, Union and World Wide cable, coiled by gauge and cut to your run. House wiring through to factory feeders.

- Cut to length
- Full coils for site work

Lighting and fixtures

Philips tubes, LED fittings and drivers, Delta Light and Toshiba fixtures for offices and showrooms, Parwaz and Royal fans, and AMBER capacitors to get an old fan turning again.

- Tubes, LEDs and drivers
- Ceiling and table fans

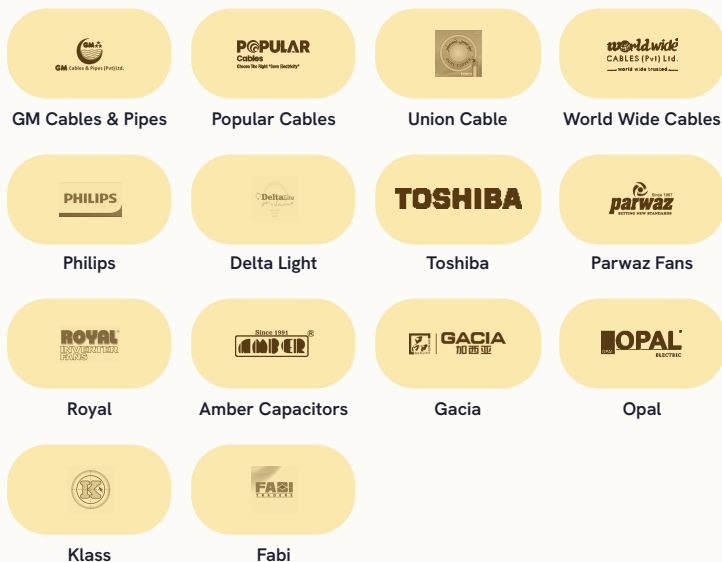

Switchgear and accessories

GACIA breakers in the common ratings, OPAL switches and sockets, Klass and FABI plates and boxes, and the small parts that close out a DB.

- Breakers by rating
- Plates, boxes and sockets

Brands we stock

14

Questions buyers ask

Do you cut cable to length?

Yes. Tell us the size, the number of cores and the run length. Full coils are there for site work.

Which breakers do you keep?

GACIA breakers in the common ratings. Send the rating and the number of poles on WhatsApp and we'll check the shelf before you drive over.

My fan has slowed down. Do you sell capacitors?

Yes, AMBER capacitors, sold one at a time. Bring the old one so we can match its value.

Catalogs we hold

Pick a model, then send us the code for a rate. Each cover opens the catalog online.

Parwaz Fans

Royal Fans

Paints a tin or a building.

Master, Brighto and Happilac on the paint wall, with tile adhesive and grout beside them. Contractors bring a whole building's list; a household comes in for one gallon.

Happilac High Bond T10

Happilac Hi-Grout

Decorative paints

Master moves fastest off the wall. Brighto and Happilac cover the rest of the interior and exterior range, by the gallon for a room or in bulk for a building.

- Interior and exterior
- A gallon or a building's worth

Construction adhesives

Happilac High Bond T10 for fixing tile and stone, Hi-Grout for the joints, and CALABOND tile adhesive for finishing crews.

- Tile and stone adhesive
- Grout by shade

Maintenance coatings

Mubah polyurethane for wood and metal, and paint for factory walls, railings and the touch-ups between tenants. Tell us the surface and we'll suggest the product.

- Wood and metal
- Walls and railings

Questions buyers ask

Can you price a whole building's paint?

Send the areas or your contractor's list on WhatsApp. We price it line by line and tell you what is in stock.

Which paint should I use on this wall?

Tell us the surface, inside or outside, and how much wear it takes. We'll name the product that suits it, not the dearest tin.

Do you keep tile adhesive and grout?

Yes. Happilac High Bond T10, Happilac Hi-Grout and CALABOND. The Hi-Grout shade chart is in the catalog on our website.

Water boring

from the bore to the tap.

Pumps, casing, bits and the consumables a bore gets through before the water runs clear. Tell us the bore depth and how much water you need, and we'll help you size the pump.

Boring equipment

Drilling gear for water bores, from house plots to factory wells. Every bore is different, so bring the depth and the site and we'll go through what the job needs.

- House plots to factory wells

Boring accessories

Drill bits, casing and the consumables a bore wears through. Ask by size and depth: this shelf is stocked by fit, not by brand.

- Asked for by size
- Bits, casing and consumables

Water pumps

Submersible and surface pumps sized to the bore, with voltage protection units beside them, because an unsteady supply burns out more pumps than wear does.

- Submersible and surface
- Voltage protection units

Our boring crew

Our boring crew drills for houses and factories and fits the pump, so one team takes the job from the site visit to running water. Depth changes from plot to plot, so we see the site before we quote.

- House and factory bores
- Pump supply and fitting
- Column pipe and fittings from stock
- Quoted after a site visit

Bits, casing and pumps on this shelf are stocked by fit, not by brand: ask by size and depth.

Questions buyers ask

Which pump do I need?

It depends on the depth of the bore and how much water you need a day. Bring the depth, or the plate off the old pump, and we'll size it with you.

Do you take on boring jobs?

Ask at the counter. Bore depth in Lahore changes from street to street, so a boring job is priced only after someone has looked at the site.

Can I buy one drill bit or one length of casing?

Yes. Ask by size and we'll pull it from the shelf.

Our own teams. Not just the parts.

Since 2008: we started sending our own electricians and plumbers to customer sites, not just selling them the parts.

01

Water boring

Our boring crew drills for houses and factories and fits the pump, so one team takes the job from the site visit to running water. Depth changes from plot to plot, so we see the site before we quote.

- House and factory bores
- Pump supply and fitting
- Column pipe and fittings from stock
- Quoted after a site visit

02

Electricians

Our electricians work on factory floors and in houses, with the cable, breakers and fittings off our electric counter.

- Factory and house wiring
- DB and breaker installation
- Motor and panel connections
- Fault-finding and repairs

03

Plumbing

Our plumbers take on new lines and old leaks, with the pipe and fixtures off our sanitary shelves.

- Supply and drainage lines
- Bathroom and kitchen fixtures
- Pump and geyser connections
- Leak repairs

04

Solar

Our solar team sizes the system to your load and installs it, on a factory roof or a house.

- System sizing
- Panel mounting
- Inverter and battery installation
- On-grid and off-grid setups

05

Air conditioning

Our AC team works in homes, shops and factory offices, from fitting a new unit to servicing an old one.

- Split and inverter installation
- Piping and mounting
- Gas charging
- Servicing and cleaning

06

Internet and networking

Our networking team wires offices, shops and factory floors, and fixes connections that keep dropping.

- LAN cabling
- Router and switch setup
- Wi-Fi across large floors

Consultation

Send the drawing, a photo of the site or the contractor's list. We work out what the job needs, line by line across the five trades, and price it.

Installation

Buy it here and our team fits it: door hardware and locks, CCTV, shelving, and bathroom and kitchen fittings.

Maintenance visits

We come back to service pumps, DB panels, geysers and AC units, when you call or on a regular schedule.

Separate firms we send customers to, for work beyond our trades.

37 brands.

By the shelf they sit on.

TurkPlast, authorized dealer.

Popular, official dealer.

Electrical and lighting

Philips

Lighting stocked deep: tubes, LED fittings, and the drivers that go with them.

GM Cables & Pipes

Cable and conduit, coiled by gauge on the back wall and cut to the run.

Popular Cables

House and factory wiring cable, sold by the coil.

Union Cable

Cable for site work and DB runs, sold by the coil.

World Wide Cables

Cable lines for installations. World Wide Cables is also in our customer book.

Gacia

Breakers and low-voltage protection in the common ratings, for the DB board and the panel.

Opal

Switches and sockets for house and factory wiring.

Amber Capacitors

Capacitors for fans and motors, sold one at a time to whoever is doing the repair.

Delta Light

Lighting fixtures for offices and showrooms.

Klass

Switch plates and wiring accessories, the finishing end of a wiring job.

Fabi

Boxes, plates, and the small accessories that close out an installation.

Toshiba

Lighting and electrical components, kept for the specs that ask for the name.

Plumbing and sanitary

Popular

Official dealer for Popular PPRC and uPVC pipe and fittings, plus their PVC cabinets and boards.

TurkPlast

Authorized dealer for TurkPlast PPRC and uPVC pipe and fittings, electrical conduit, garden pipe and water tanks. CP bathroom sets too.

International Industrial Limited (IIL)

IIL pipe for water supply and drainage runs.

RBS

Sanitary fittings. The current rate list is in our catalogs.

Dura Max

Plumbing and sanitary lines for site work.

Easyfit

PPRC pipe and fittings for straightforward supply runs.

Dell

Sanitary ware and bathroom fittings, with the catalog on our website.

Hardware and tools

Golden Bridge

Welding rods by the box, for the fabrication shops around the estate.

WD-40

The original, by the can or the carton.

Mubah

Polyurethane coatings for wood and metal, mostly bought by joinery and fabrication shops.

GMSA

Silicone sealants and adhesives. This is the tube most site kits carry.

Kugel

Hand tools and workshop hardware for crews who buy their own kit.

Miscellaneous

Parker

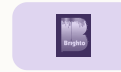

Precision hardware, special-ordered.

Paints and coatings

Master

Decorative paint for homes and offices, with the full range on the paint wall.

Brighto

Interior and exterior ranges, bought by the gallon for a room or by the pallet for a building.

Happilac

Paints, plus the High Bond T10 adhesive and Hi-Grout lines. Both catalogs are on our website.

Calabond

Tile adhesives and bonding for finishing crews.

Home appliances

Parwaz Fans

Ceiling and table fans, catalog on our website.

Super Asia

Sanitary ware and appliances. The catalog runs from basins to complete bath sets.

Golden Fuji

Household appliances for homes and shop fit-outs.

Panther

Appliances for homes and shops.

Canon

Geysers and water heaters for homes.

Royal

Fans, with the current collection in the catalog.

Building materials

SKF

Bearings, pulled by size.

NTN

Precision bearings for motor and machine repairs.

Who we supply. From the customer book.

60 names, most of them factories in and around Sunder Industrial Estate, grouped by the trade they are in.

 Tittis Pharma	 Baariq Pharma	 Ameer & Adnan Pharma	 GT Pharma	 Horizon Pharmaceuticals	 Izfaar Pharmaceuticals	 Allmed Pharmaceuticals	 Mac & Rains Pharmaceuticals

 Hospitals and clinics

"Fifty thousand square feet of facility, and when something breaks I send one message. Someone who knows the stock answers, not a call center."

Rashid Hussain
Facilities Manager, Roshan Packages

"We moved all our hardware buying to one account with them. One supplier, one invoice, and they have never argued about a return."

Amjad Pervaiz
Operations Director, Herbion Naturals

How ordering works.

One pump or a plant's whole list.

1

Send the list.

On WhatsApp: type it out, photograph a handwritten list, or send the drawing, the model number or an old invoice. Or email a purchase order or BOQ.

2

We price it.

Rates for pipe, cable and paint move with the market, so each line is priced on the day you ask, on our letterhead. If something isn't in stock, we say so.

3

We deliver.

Across Lahore and outside it. Urgent orders inside Sunder Industrial Estate at your gate within 3 hours. Or collect from the counter at Gate No. 1.

Paperwork with every order

Quotation

On our letterhead, priced line by line on the day.

Invoice

Printed, with every order.

Delivery challan

Printed, with every order.

Email a purchase order or a BOQ and we reply within the hour during shop hours.

info@hassantradersstore.com

Registered with FBR

5316224

NTN of Hassan Traders, an Association of Persons (AOP). On FBR's Active Taxpayer List.

How you can pay

Cash, bank transfer, cheque or pay order, JazzCash, Easypaisa or card. Bank details are sent with the invoice.

Opening an account

Send a request on your company letterhead with your NTN or the owner's CNIC. Most accounts start with a few cash orders, then we agree terms with you.

Talk to us

Our staff speak Urdu, Punjabi and English. Monday to Saturday, 9:00 AM to 7:30 PM. Sunday, 9:00 AM to 3:00 PM.
