Hassan Traders

In the trade since 1998.

Run by the family that started it.

Rai Muzzammel Khan
Founder, 1946 to 2022

He ran it the way he lived: a fair price, the right part, and every customer known by name.

Factories around the estate learned they could send someone to his counter and get the right part, not the most expensive one. That is still why they come back. His four sons run the shop today, on the terms he set.

1998

It started in Sunder.

Rai Muzzammel Khan opens Hassan Traders as a small hardware shop in Sunder, the town near Multan Road.

2003

Sanitary and electric added.

Factories nearby wanted more than hardware, so the shop added sanitary and electric lines.

2008

Our own service crews.

We started sending our own electricians and plumbers to customer sites, not just selling them the parts.

Around 2010

To Gate No. 1.

The shop moves to Gate No. 1, Sunder Industrial Estate, off Raiwind Road, where it is today.

2013

Bigger premises.

More room, so we could hold bulk stock for factory accounts.

2022

Our father passes away.

Rai Muzzammel Khan passes away. His four sons carry on the shop he built.

2023

Catalogs online.

Our products, brands and catalogs go on the web, so customers can check a line before they call.
